Process

I. Data Collection

- Project location, name and function.
- 2D drawings including site plan, elevations, floor plans and sections.
- 3D model in Max, Sketch up, Revit or Rhino will be more helpful if it's available.
- Approved view angles.

II. Production

1) Rendering Production

- Model and View Angle Confirmation.
- Lighting and Materials Confirmation.
- Landscape and Entourage confirmation.
- Final Delivery.

2) Animation Production

- Model Confirmation.
- Wireframe path confirmation.
- Lighting, landscaping, materials and entourage confirmation by key frames or low-resolutioned draft.
- Final Delivery.
